**Zep Inc. Debuts Line of Zep Professional Industrial Products**  
**At Its First-Ever ISSA/Interclean Appearance**

CHICAGO (October 6, 2009) – Zep Inc. will exhibit at the ISSA/Interclean Show for the first time since launching the Zep Professional brand last October and will feature a line of products geared for industrial facilities.

“The Zep Professional line of industrial-strength penetrants, lubricants, degreasers, and hand cleaners can handle the most challenging maintenance tasks and tough soils,” says Jeff Sorensen, chief marketing officer, Zep Inc. “They are ideal for when the job requires more than just a general-purpose cleaner.”

In addition to Zep Professional products for jan-san and food service markets, Zep Inc. will feature the following products for industrial use at ISSA/Interclean:

- **Heavy-Duty High Alkaline Cleaner** – A concentrated, multi-purpose, low-foam, powerfully alkaline cleaner and degreaser designed to clean the toughest soils in heavy-duty industrial cleaning applications. Its fast-acting caustic formulation may be applied with a mop, brush or pressure washer. The economical formulation can be diluted up to 1 to 100. It is available in one-gallon bottles and five-gallon pails.
- **Z-Works Soy Penetrating Lubricant** – Uses a renewable soy solvent to provide lasting lubrication while protecting against rust and corrosion. It offers excellent water-displacing properties. It is available in 24-ounce cans.
- **Soy Industrial Hand Cleaner** – An environmentally preferred hand cleaner that uses a combination of soy solvents and walnut shell abrasives to loosen tough

grime. It contains no harsh petroleum solvents, and the walnut shell abrasives will not clog drains. The cleaner has an apple cinnamon fragrance and is available in one-gallon bottles.

For more information on these products, visit [www.zepproessional.com](http://www.zepproessional.com) or call 1-877-7-ZEPPRO.

About Zep Inc.

Zep Inc. (NYSE: ZEP), with fiscal year 2008 net sales of more than \$574 million, is a leading producer, marketer, and service provider of a wide range of cleaning and maintenance solutions for commercial, industrial, institutional, and consumer end-markets.
